Global network of  
national initiatives

## Further areas of collaboration within the Regional Network

- ✓ Fundraising: **bilateral** (for example, projects with Belarus within the framework of BRFFR, SCST competitions) and **international projects** (COST – DNAqua at least)
- ✓ Sharing of information/data and experience
- ✓ Assistance in identification (by classical methods and using molecular methods)
- ✓ Monitoring, risk assessment (for invasive species)
- ✓ Creating a group in the Facebook social network
