Mutually Agreed Terms (MAT) Information

Confirmation that mutually agreed terms (MAT) have been established

YES

Additional information about the mutually agreed terms

3.2.The Parties shall have equal rights to the results of scientific research and their publication. 3.4.Utilization of the transferred genetic resources, as well as derived genetic resources (lines, varieties) resulting from the involvement of the genetic resources of the Provider of genetic resources in breeding for commercial purposes

shall be possible only after the conclusion of a new agreement on sharing of benefits derived as a result of their commercialization. 3.6. The User of Genetic Resources must obtain prior approval from the Ministry of Natural Resources and Environmental Protection of the Republic of Belarus (the Competent National Authority) for: - submitting of an application for intellectual property rights to the invention based on accessed genetic resources; - commercial use of accessed genetic resources.

Subject-matter

Subject-matter or genetic resources covered:

The subject matter of this Agreement is the transfer of the *samples (the seeds of Galega orientalis Lam. (12 variations (SEG-1—SEG-12); 10 tetraploid samples (TET-1—TET-12); two varieties: Nesterka and BGSKHA-2)* by the Provider of genetic resources to the User of genetic resources for scientific research.

Information on the utilization of the genetic resource(s)

Type of use allowed by the permit or its equivalent

Non-Commercial

Specific uses covered by the permit or its equivalent or use restrictions:

The genetic resources transferred in accordance with this Agreement must be used exclusively for *scientific research*.

Conditions for third party transfer:

Any changes in terms of the genetic resources utilization specified in clause 3.1 of this Agreement must be formalized in the form of additional agreements (Protocols) to the present Agreement.

Documents and Additional information

Copy of permit or its equivalent, or other relevant open-access document:

The Ministry of Natural Resources does not object to the transfer by the Educational Institution "Belarusian State Agricultural Academy" of genetic resources (seeds of *Galega orientalis Lam.*), 12 varieties, 10 tetraploid samples, 2 varieties of *Nesterka* and *BGSHA-2*) to the Agricultural University of Inner Mongolia (China). The Ministry of Natural Resources confirms that the transfer of the above-mentioned genetic resources (type of use -

non-commercial) is carried out on the basis of mutually agreed conditions (MAT) for the sharing of transferred genetic resources and the distribution of expected (non-monetary) benefits concluded between the Academy and the University, and in accordance with the requirements of the Nagoya Protocol on Access to Genetic Resources and the Fair and Equitable Sharing of Benefits Arising From Their Utilization to the Convention on Biological Diversity.
